To the attention of Gerry Oxford:

I have spoken to you on the phone regarding the above and here are my comments following our conversation:

- I am in principle against the felling of trees ( especially when they are covered by a TPO, needless to say).
- As I am sure you have seen when you came to visit, this tree is a beautiful feature all around: it can be seen from the High Street ( Swain's Lane) or even the entrance of the Heath at Parliament Hill Fields. This tree does enhance the Conservation Area, the local wildlife and indeed our visual amenity( rear garden of 3 Hillway). It has some very pretty "silver" leaves in the summer that we are very fond of.
- this is why I wish to object to its felling unless you assess as a tree officer that it is in too poor a condition.
- in case it can be saved, I am in favour of trying to do everything possible to aim for this result.

I would be very grateful if you could kindly let me know what your decision was and why.

Many thanks for your attention and your time.
