Dear Sir/Madam,

Please see attached photos of a robinia in the front garden of 18 Greenaway Gardens NW3.

The tree has extensive decay on the main trunk from ground level to 2 m and has moved significantly in the last few days towards the house. The root plate has lifted around the garden wall and gaps have developed between the main buttress roots and the adjacent soil.

Please take this correspondence as a 5 day notice of intent to fell the tree. If you have any queries please do not hesitate to contact me on 07733442017.

Best regards,

--
