2015/0921/P	Gimenez	50 Hardington	07/03/2015 17:04:28	COMMEMP ER	<p>6 storeys is too high, should be kept with level of row of houses next to it.</p> <p>Make sure the minibus parking allows also easy access for U turn in a circle shape for minibus to go in and out easily. At the moment, the minibuses are stationary with engine which is noisy and polluting the area.</p> <p>Should be triple glazing as very noisy school and football pitch working until 10pm! Very important for vulnerable elderly NOT to be affected, at the moment, it is a nightmare and council doesn't care nor help about the noise.</p> <p>Larger greener areas for residents to really enjoy walks around</p> <p>Energy efficiency, solar panels, etc... Are essential</p>
