Dear Mr Wittingham,

Comment on Planning Application 20/14/7683/P - Parliament Hill School, etc.

In the light of the numerous and well founded objections to this scheme, it is apparent that the development was devised to meet the planning regulations without regard to the wider issues that are the proper concern of the Planning Committee and the Council Officers. It is quite clear that the proposed development would destroy almost everything that makes Lissenden Gardens a fine residential element. The scheme is a glib solution to the very real need to expand Parliament Hill School, no proper attempt to investigate the alternatives, a view reinforced by the token consultation with the Lissenden Gardens Tenants' Association and the decision to give a derisory response at the Planning Committee meeting.

Yours sincerely,
John Crouch
