2015/0818/P	Tom Engel	7 Northpoint Square Camden NW1 9AW	10/03/2015 22:22:54	COMMNT	<p>We are the owners of 3 Leverton Place and wish to object to this application on behalf of ourselves and our tenants who currently live in the property.</p> <p>Leverton Place is a small and narrow road and buildings on both sides are already high. The proposed extension would severely limit the light reaching the houses opposite and the road as a whole.</p> <p>The fact that the proposed design includes a terraced area does not adequately address this issue.</p> <p>A similar application was made some years ago and I do not believe the circumstances have changed - the proposed building works are out of keeping with the area, would cause severe inconvenience for a significant period, and would have a strongly detrimental effect on neighbouring properties.</p> <p>Thank you for your consideration of these comments</p>
