2015/0906/P	Tim Matthews	101 Albert Street Camden Town NW1 7LY	10/03/2015 18:17:31	OBJ	<p>Dear Sir,</p> <p>I must object to these proposals for the Admiral Mann.</p> <p>Firstly, the presence of residential accommodation directly above the public rooms of pubs has a well-known detrimental effect on the pub's business.</p> <p>Secondly, and more importantly, the reduction of size of the pub and its redesign will completely destroy the character and atmosphere of the pub - and may well make it unviable.</p> <p>The pub's current design has a well defined separation of the two main rooms, tap room and lounge providing a choice of areas to drink, and also allows for parties, performances and especially the numerous sports teams to meet &amp; play without causing disturbance to the other room.</p> <p>Far too many pubs in Camden have closed (40 or so this century) or been redeveloped into places that have little appeal to the local residents of Camden.</p> <p>The Admiral Mann was a very busy pub and was used by a wide cross-section of the local society, ages, genders and races - something that is rarely seen in pubs now.</p> <p>It has been rightly given ACV status, and that's exactly what the Admiral Mann - an asset to the community, and one that was very well used.</p> <p>To ignore that status would detroy this pub and let down the local people all for sake of another developer's quick buck.</p> <p>Thank you, Tim Matthews</p>
2015/0906/P	Mr Kevin Moore	84 Patshull Road NW52LD	10/03/2015 22:06:59	SUPC	<p>I am glad that a pub will remain, however this old victorian building deserves better, the loss of space (40%) is far too much. Preservation needs to be the deciding issue.</p>
