

This architectural elevation drawing shows a building facade with a central dark, shaded section. The facade is composed of several window units arranged in three rows. The top row features four windows, each with a dashed line indicating a diagonal split and a small arrow pointing downwards. The middle row has four windows, also with dashed lines and arrows. The bottom row consists of two larger windows on the left and two on the right, each with a dashed line and an arrow. The central dark section is a large, solid black area that obscures the building's details. To the right of the building, there is a simple line drawing of a house with a gabled roof. The drawing is a technical sketch, likely for a design or construction project.

The drawing is a technical sketch, likely for a design or construction project.

This architectural elevation drawing shows a building facade with a central dark, shaded section. The facade is composed of several window units arranged in three rows. The top row features four windows, the middle row has four windows, and the bottom row contains two larger windows. Each window unit is depicted with a dashed line indicating a potential opening or closing mechanism. A central dark section, possibly a recessed area or a different material, runs vertically through the middle of the facade. The drawing uses clean lines and shading to represent the building's form and window details.

This architectural elevation drawing shows a building facade with a central dark, shaded section. The facade is composed of several window units arranged in three rows. The top row features four windows, the middle row has four windows, and the bottom row contains two larger windows. This architectural elevation drawing shows a building facade with a central dark, shaded section. The facade is composed of several window units. The top row features four windows, each with a dashed line indicating a diagonal split and a small arrow pointing downwards. The middle row has four windows, also with dashed lines and arrows. The bottom row consists of two larger windows, each divided into a grid of four panes by solid lines, with dashed lines and arrows indicating a diagonal split. The central dark section is a large, solid black area that obscures the building's details. To the right of the dark section, there is a small, light-colored structure with a gabled roof. The drawing uses a combination of solid and dashed lines to represent architectural elements and their internal structure.

- Drawing based upon the formal survey information issue by GREENHATCH Surveys Dated August 2014
- Information to read in conjunction with Structural Analysis and MEP Engineer package information
- All levels indicated as height above Ordinance Survey Datum taken from survey. To be confirmed.
- All dimensions subject to a tolerance of +/-5mm.
- All details are indicative and should be reviewed against contractors selected supplier / manufacturer / system. Any variations are to be advised to and approved by the Contract Administrator prior to commencement on site.
