Informative(s):

- 1 Reasons for granting permission.

The proposed walk-on rooflight would be located within the raised forecourt and set flush with the new paving. These additions are considered to be appropriate in terms of their location, size, and design. There is a mix of treatments with paved forecourts, pavement lights and open lightwells within the wider terrace. The rooflight would not give rise to any adverse impact on the amenity of neighbouring occupiers or be harmful to pedestrians.

The site's planning history and relevant appeals have been taken into account when coming to this decision. No comments were received prior to making this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 56 -66, 126 -141 of the National Planning Policy Framework.
