Your comments on the planning application

We violently object to yet another monstrous digging and building application in this area.  
Nos. 29 and 30 Lyndhurst Road were given planning permission to dig down and build out and we all endured two years of hell on earth. At the end of it the building work you at the Council allowed created the effect of a dam and all the water in the area has flooded into our garden at No. 31. This is a garden that the owners of the house have worked so hard at and made so beautiful that it has won several awards and prizes. Now it is a swamp, permanently sodden with all the water that should be spread over much

### Planning Application Details

more of a land area but is blocked

No sooner had the work at 29 and 30 finished than a massive job on the other side of us No 1 Akenside Road was given permission by you and our lives are a nightmare from 8 am to 6pm on weekdays as they have almost completely gutted this property and begun to put it together again.

Noise! Noise! Noise!

On Saturdays they seem to make the maximum noise from 8 am to 1pm but often work goes on beyond that into Saturday afternoon and even Sundays - I know some of these incidents have been reported to the Council but it still goes on regularly. If you now give permission to No. 2 and 3 Akenside Road to dig down not only will you have completely ruined our lives for even more years but there will probably be a lot more damage as yet unknown. Has anyone taken note of the fact that our property's land is several feet higher than that of 2 and 3 Akenside? That fact coupled with the water logging should happily ensure that 31's garden quietly sinks into it's neighbours land once they start digging especially as Akenside Road is a Hill

Your comments on the planning application

We strongly object to the planning application for excavation at No 2 Akenside Road, as Camden Council have freely given these permissions with little regard for the local residents. we feel strongly that digging in Akenside Road will yet again cause so much disruption to our everyday lives. We have had permission granted at 29 and 30 Lyndhurst Road which caused two years of noise, parking and traffic problems, rubbish and mud all over the place with every weekend completely destroyed by noise, parking and traffic problems and all the other disruptions that come with this type of work.

**Planning Application Details**

Now we are having the same from 1 Akenside Road and if 2 and 3 Akenside Road are also given permission it looks very much as if you are trying to force us out or at the least make our lives unbearable, which is what will happen if you grant these permissions. We beg you to consider other residents, especially after we have just read in today's paper of a house that has started to collapse as a result of a basement build next door.  
Please do not give permission for basements on the hill where 2 and 3 Akenside Road are situated.
