4th March 2015

Dear Sirs

I have just received the new planning application consultation re the Gym at 37 Fortune Green Road 2015/0253/P

You obviously have not been paying attention to the problems that we have been complaining about since this gym opened. It was sold to us as a gym for locals-wrong as the cars that drive up and park constantly in the Greeks and the roads around is HORRENDOUS after 12pm. The men-because it is mostly men-are rude and aggressive in their parking and use our roads as litter bins after buying their food at Tesco after their workouts. I have many times seen them eat in their cars then throw their rubbish out the window. They do U turns and hurl abuse if you are in their way and drive like maniacs along the Greeks far too fast for a residential area with children and animals.

If you agree to this extension it will unleash even worse problems for this area. Parking,litter,aggression and the addition of even more cars to the area-why ?????? They don't need more space and we would hate it but then again the council is obviously only interested in the business rate payer not the ordinary residential rate payer. This is not a suitable place for this gym but it is here and we are trying to deal with the problems that you have put on us but for heavens sake don't allow them to expand. You are ruining this lovely residential open area full of children on the Green and young families.

Kind regards

[REDACTED]

Jane Kerney
