This proposal is obtrusive and out of character with buildings in the conservation area because of the size of the proposed extension and due to this is out of harmony with the area it will also encroach on the rear garden space of the building behind leading to both loss of light and privacy. Extensions should be of small scale and subordinate to the the original building . This proposal should be rejected due to its size and potential harmful effect to the surrounding area and it in no way enhances the CA. Bartholomew Estate and Kentish Town CAAC
