2015/0906/P	Sean Dillon	Flat 60 Penfields House York Way Estate York Way London	13/03/2015 12:55:42	COMMNT	I oppose the above planning application as I believe it will jeopardise the long term viability of the Admiral Mann as a pub and hasten it's eventual full conversion into residential units. I am a local resident who has drank in the Admiral Mann for years. It has been a unique and valuable fulcrum of the local community for over a century and is sorely missed. I think Camden would be deeply unwise to allow this application to progress, particularly as there is a growing groundswell of opinion that pubs of community value should be protected from the rapacious and utterly counter productive destruction being wrought upon areas of North London, and a rejection of this application would illustrate that Camden Council is serious about social cohesion and well being as opposed to profit at all costs. Thank you for your time
2015/0906/P	Emily Grayson	56 Brecknock Road London N7 0DD N7 0DD	17/03/2015 16:56:37	OBJ	The Admiral Mann has always been an important community asset. I oppose any development which would threaten this. I understand that the redeveloped pub would be of such a size so as to make it unviable as a pub. The proposed design will see a classic Victorian pub lost forever.
2015/0906/P	Emily Grayson	56 Brecknock Road London N7 0DD N7 0DD	17/03/2015 16:56:54	OBJ	
2015/0906/P	Stephen Grange	6 Brampton Park Road Wood Green N22 6BG	14/03/2015 08:49:18	COMMNT	I strongly oppose this development. This is yet another historic pub building under threat. Do we want a city with just shops and houses and flats
2015/0906/P	Sheila Norris	Flat 8 317 Essex Road N1 2EE	17/03/2015 12:13:17	OBJEMAIL	Pubs are a valuable part of any community and this pub has many activities for locals. With cuts in funding to community centres, it's vital for people have places to gather and have a sense of belonging to a community. And the bonus here is it's privately funded.
2015/0906/P	John Grayson	56 Brecknock Rd N7 0DD	17/03/2015 18:10:01	COMMNT	It is very important that this much-valued community pub be able to resume, and that any permitted development does not preclude the continuation of its PH status, nor that a newly-created PH space is so small as to be un-viable.

2015/0906/P	Paul Buckle	Flat 7 20 Hilldrop Cres N7 0JF	17/03/2015 13:05:40	OBJEMAIL	<p>It is clear from the proposals that proper provision is not made for the PH to continue to function adequately and is a mere smokescreen for the other plans to gain approval.</p> <p>The pub has been the hub of the local community for many years and I myself was a regular for almost 12 years before it closed. It is tragic that this asset to the community is being lost to the local residents. Many people who have used it longer than I have relied upon it as a way of meeting friends and socialising. For many elderly locals it was the central point of their social life with regular activities and functions going on.</p> <p>On the basis that the Admiral Mann is an Asset of Community Value and the proposals put forwards do not do enough to protect this asset I would like to object to the above application</p>
2015/0906/P	Julietta Cochrane	6a Gillies Street Kentish Town NW5 4DL	13/03/2015 11:27:35	COMNOT	<p>I strongly object to the proposed alterations to the historic Admiral Mann. Its essential that pubs are preserved as a community asset and the value which they give in terms of social space. The existing proposals would make a pub too small to be viable in anything but 'gastro' terms and is not suitable for the area. This pub has been around since the 1870s and cannot afford to be lost to developers. So many pubs have been lost in Camden - this cannot be another ...</p>
