Planning application address..... *12 Wilko Road*

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments *Dear Mr Clerk,* *11.11.15*

The proposal to build a extension full width, butting up immediately on to the neighbouring garden wall, will set an unacceptable precedent for the whole street in this conservation area, reducing daylight and sunlight. It will overawe the adjacent property so that each house will be left with only a narrow dark alleyway as their outlook and garden access.

The planners should in any event clearly specify that all walls, particularly those immediately against the adjoining property, must be fully fireproofed, damp proofed and soundproofed.

In the interests of credibility, we can not see why such a sizable extension is required, when the property has been long owned and occupied and continues to be owned and occupied by only two people, unless they are proposing to sell or let, which has not been given as the reason in their submission.

Please continue on extra sheets if you wish *Thankyou* [REDACTED]
