Subject: Planning Application No 2014/7847/P: 3 Arkwright Road, NW3

Dear Cllr. Leyland,

I am writing to you as our Ward councillor to ask for your support for the above planning application. Our son, aged 10, is currently a pupil at St Anthony's and it is with his welfare and particularly of all succeeding pupils that we feel very strongly that the Council should allow this application to go ahead. Our personal experience attending the school has highlighted just how important the very considerable improvement in road safety/crossings will be. The anticipated cut in the number of vehicles at school-run time is an obvious boon to the whole community as well as the parents.

The school is a super school with notable scholastic achievements, has a happy and productive atmosphere and a very capable and welcoming staff. The extra capacity will give more local people the opportunity to use the school notwithstanding the new teaching jobs being created.

We feel that St Anthony's will continue to be a valuable asset to the area and urge you to use your good offices to support the application.

Yours sincerely,

Ian and Karen McGregor.

Flat 2, 7 Steeles Road, Belsize Park, NW3.
