I object to the application (please state reasons below)

Your comments

Over 35 years (I moved here in 1980) I have noticed the resident at 14 Willes Road sitting in her patio area outside the kitchen window enjoying the sunshine - and she obviously takes great pleasure in her garden.

Bearing in mind the East facing orientation, the proposed extensions will effectively remove all sunshine from her kitchen window and patio and reduce the sun available to 26 feet of her garden.

Making a full width extension seems to be new - is it consistent with planning in its conservation area? The bonus of living here is that we do have gardens to enjoy and they ensure our houses are comfortably spaced from our opposite neighbours.

PLANNING APPLICATION No. 2015/0931/P

Planning Application address 12 WILLES RD.  
NW5 3DS

Continuation

I see the changes planned are intended to benefit an ageing family. In my experience the prime need becomes a ground floor bedroom with adjacent lavatory and bathroom.

BUT in the plans the present ground floor bedroom is being removed!! I don't know the ages of the applicants - but have they been well advised?
