

**Application No:** 2015/1434/P      **Consultees Name:** Mr T. James      **Consultees Addr:** 1 Grove Terrace Mews London NW5 1PJ      **Received:** 19/03/2015 14:44:43 OJB      **Comment:**      **Response:** The amended application seeks to further extend the rear extension by an extra four metres across the entire width of the property and add an additional glazed skylight area of 12.5 sq metres to the approved 7.5 sq. metre roof light. This is in addition to a full height and full width glass window/door. A total of 36.5 sq. metres or 392 square feet of glass. Not only is this out of character with the surrounding buildings but also constitutes a considerable amount of light-spill nuisance across adjacent houses - and ours in particular as the front of our house faces the back of the applicant's.
