2015/0388/P	Mark Roberts	17 Dene Mansions Kingdon Road London NW6 1QU	21/03/2015 14:26:56	OBJ	I understand that the development would involve the removal of the tree in the back garden of the property. I am worried that removing the tree could result in damage to the foundations of Dene Mansions (the planned building is next door to the block of Dene Mansions in which I live). I also feel that losing this substantial and well-established tree would be a loss of a visual and ecological amenity in the heavily and increasingly built-up area of West Hampstead. The tree has been a valued part of our life for many years.
2015/0388/P	Jacqueline Alpert	3 Dene Mansions Dennington Park Road London NW6 1AY	20/03/2015 09:54:00	OBJEMPER	I wish for planning consent for this application to be refused. The large horse chestnut tree on the applicant's side of the wall between 1 Kingdon Road and Dene Mansions needs to be retained, Removing it would kill the roots, leading to heave / subsidence of the soil and therefore damage to the foundations /building at Dene Mansions and damage to the wall. Removal of the tree would represent the needless loss of a substantial visual and ecological amenity in this already built up area. The proposed extension to 1 Kingdon Road, with its enlarged rear balcony, would cause loss of light to the adjoining flats in Dene Mansions and the increased occupancy would mean greater demand for parking in an area where parking is already at a premium.
