OBJECTION TO PLAN 2015/0906/P
S. A. WATHER.

I am sending you this letter on regards about the partial demolition of the Admiral Mann public house. I have lived in the same area since I was nine years of age in the red flats in Brecknock road which is as you would know Islington. I started using the Mann at 18 years of age and now it is being made into 6 flats. The fact is, all you want to do is make money out of it and you don't care who it upsets and I assure you that you have done just that. Making a pub into a smaller one is so stupid as the people who will be buying these flats would't ever use it just as the flats at the back of the Mann haven't. Since the closure I havnt seen many people who used the Mann which is very upsetting as we were all very close due to the Mann being a lovely & friendly place to meet up. now there is nothing locally. Its a pity you are putting money before people but I suppose that is what is happening to the good old days in Brecknock Road. Election time forget it for me as I have always been working class. I have spent some thought into this letter perhaps you will

Thanks
