The plans and descriptions are not adequate.

There are not enough details about how the construction of the glass extension would impact on our party wall.

There is a danger that the building of the extension would drive damp into our property.

Our friends at Number Three, Lord and Lady Moser, have expressed their own concerns. They worry in particular that the steps at first floor level might be intrusive. The privacy of the back gardens of numbers 3 and 5 might be threatened if a "deck" or dining area is proposed here.

Please continue on extra sheets if you wish
