2015/1536/P	Francoise Findlay Elsworthy Residents Association	1 Lower Merton Rise London NW3 3RA	24/03/2015 16:42:51	OBJNOT	GA 002 shows the street elevation with low brick walls and close boarded. Hardwood fence. Behind it the illustration shows a high green hedge. This is deceptive since the proposal is for box and to achieve the height illustrated in box is unrealistic. In order to preserve the Willett garden suburb appearance it would be preferable to have a fence at all but certainly not close boarded and with a hedge planted that can grow through and provide a green screening to replicate the original privet hedges Willett planted when he designed his estate.
