Your comments on the planning application

1.The proposal is for a 'refurbishment', this is impossible because no structure exists to refurbish . It is a new structure involving the demolition of a structure that has been present for over 50 years .

2. The new structure extends more than 3m. beyond the existing building , as such it sets an unwelcome precedent to neighboring houses to also extend into valuable scarce green space .

3. The whole project is based on flimsy evidence that there ..was a structure there a long time ago'. This is not a valid reason for new build structures in sensitive green space .
