- 1 Reasons for granting permission. [Delegated]

The proposed French door at lower ground level and Juliette balcony at upper ground level are acceptable changes to the existing building. The proposed glazing pattern, proportions, materials and details will match the existing surrounding windows. In addition, the proposed door is located at lower ground level and is not overtly visible. There are no new openings proposed to the rear of the dwelling.

Whilst the development will have some impact in terms of the addition of a Juliette balcony, such an addition in this location is not considered harmful to the character or appearance of the host building, street scene or the Hampstead Conservation Area as it is not visible from the wider environment and is in keeping with the attached property at 10 Hampstead Square.

No objections have been received and one letter in support of the application has been received. A site notice was also displayed. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy

Framework.
