

PROPOSAL

installation of Homework Cabin in garden of Vadnie Bish House, 33-43 CAVERSHAM ROAD
NW5 2DR

The existing after-school club in the classroom does not allow older children to access the curriculum suitable for their age range.

For instance - they cannot play chess because the younger children will disturb them. A homework slot for them is not possible due to the same disturbance.

It's an OFSTED requirement that staff to have time away from the children. The cabin space also makes it possible.

The cabin's position in the garden does not impact its other functions and roles.

No trees are disturbed by the installation.
