As background to our specific worries we should mention that we are both in our 90's and so privacy and peace in the house and garden are particularly important to us.

Building works of such an extent and with significant noise issues would be most disturbing for us. We are particularly worried as we underwent much disturbance last summer, when the current owners of No 4 had extensive renovation works prior to moving in. The noise of the works was disruptive and frequently happened out of hours and at night and the weekend. We therefore feel that a renewed phase of work at this property will result in further unacceptable disruption.

On a specific aspect, the proposed changes to the external staircase will impair the privacy of our garden as they appear to make it much easier to overlook it. It may also raise security issues, particularly in the light of at least two attempted burglaries at the back of the Terrace last year.

For these reasons, we are opposed to the extension as currently planned.
