2015/1027/P	Gillian Edwards	Flat D 315 West End Lane	29/03/2015 09:59:07	OBJEMPER	I am a leaseholder at 315 West End Lane. I have strong objections to this proposal. 1. This flat would totally impose on my roof terrace, blocking light, destroying my privacy and enjoyment of the roof terrace. I bought the flat because of the roof terrace. 2. The access to the site is very narrow and equipment going to and from the site is going to be hugely disruptive to all of the neighbours. 3. As this is a conservation area, this design will severely damage the visual appearance of the roof line. 4. Currently we have a big problem with rubbish collection. Bags are left scattered onto pavement on West Cottages and I found dead rat there yesterday. We have have no bins, and when we did have tow, they were never emptied by the council. I would dread having even more rubbish lying around. 5. Parking is already a problem here, and we do not need any more cars in the area.
