Dear Ms Chivers

**Notifications under Circular 01/2001, Circular 08/2009 &
T&CP (Development Management Procedure) Order 2010
1-11 STONE BUILDINGS, LONDON, WC2A 3XT
Application No 2015/0175/L**

Thank you for your letter of 22 January notifying us of the application for listed building consent at Grade I listed Stone Buildings.

English Heritage Advice

English Heritage was pleased to be involved in on-site discussions over this scheme. It is encouraging that the Latchways Versirail system, as originally proposed, is now to be replaced with a safety harness system which we consider to be a much more sensitive and visually discrete solution. However, your Council should be satisfied that the required fixings for this alternative system will have minimal impact on any significant fabric.

Much of the remainder of the proposed works are for general repairs and this is welcomed by English Heritage. As we have previously indicated however, any cleaning should be subject to a trial in a discrete location of the building, and your Council should consider covering this element by condition if you are minded to approve the application. We would also strongly discourage the installation of scaffolding which requires perforating the façade of the building.

Recommendation

We recommend that the application should be determined in accordance with national and local policy guidance, and on the basis of your specialist conservation advice.

We have therefore drafted the necessary letter of authorisation (draft attached) for your Council to determine the listed building consent application as you see fit and referred the case to National Planning Casework Unit. Subject to the Secretary of State not directing reference of the application to him, they will return the letter of authorisation to you. If your authority is minded to grant listed building consent, you will
