**Planning Application 2015/0825/P**

Dear Sir/Madam,

I am a resident of Regents Square and have been living here for 23 years.

I do not object to 'development' and change and have agreed along with others that the planning application for Wakefield Street should go ahead.

However this new application 2015/0825/P is a deliberate evasion and attempt to re instate the very elements of the original planning application that we, as a community, rejected. This a cynical misuse of planning codes.

The alteration to 8 flats from 3 town houses with extra high level windows at the rear, causing loss of privacy to the residents of Regent Square and should be rejected by Camden.

The existing planning consent for The Old Dairy is more than sufficient volume of housing in this very restricted space.

I look forward to hearing from you

yours sincerely
