## 6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

## 7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

*E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.*

1. Reduce height and spread of old pear (perry) tree by 25% to shape and make safe for the future. Work needs doing due to some hollow in trunk and some canker in main branches. Due to age of tree only eventual alternative would be felling which we absolutely prefer to avoid.

2. Similar (i.e. 25% reduction of spread/height) in nearby holly tree again due to issues posed by increasingly hollow trunk.

Both actions recommended by experienced tree surgeon, Antony Wylam, who would undertake work.

Location of trees - the only pear and only holly tree in back garden of 23 Grove Terrace, both towards right hand side (from back door exit) near party wall to 22 Grove Terrace).

Camden welcome to inspect trees in question if you so wish. I work from home so flexible on times to suit Camden.

## 8. Trees - Additional Information

### For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

### For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

Yes  No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.
