2015/1274/P	Masha Serdarevic	Flat 2 10 Macklin Street	31/03/2015 11:16:27	COMNOT	Hello

It's very hard/impossible to find a description of what the proposed 'acoustic enclosure' is supposed to be. The acoustics report and most of the other documents refer only to the air conditioning units.

I would also like to know how long the installations/building works are expected to go on for.

Both the 'acoustics enclosure' and the air con units are proposed to be installed right above my balcony so I am concerned about this proposal.

At this stage, I object to the application.

I would like to attend the committee meeting(s).

Best regards
Mrs Masha Serdarevic
