

## 4.0 PUBLIC REALM OVERVIEW

4.1 WIDER PUBLIC REALM

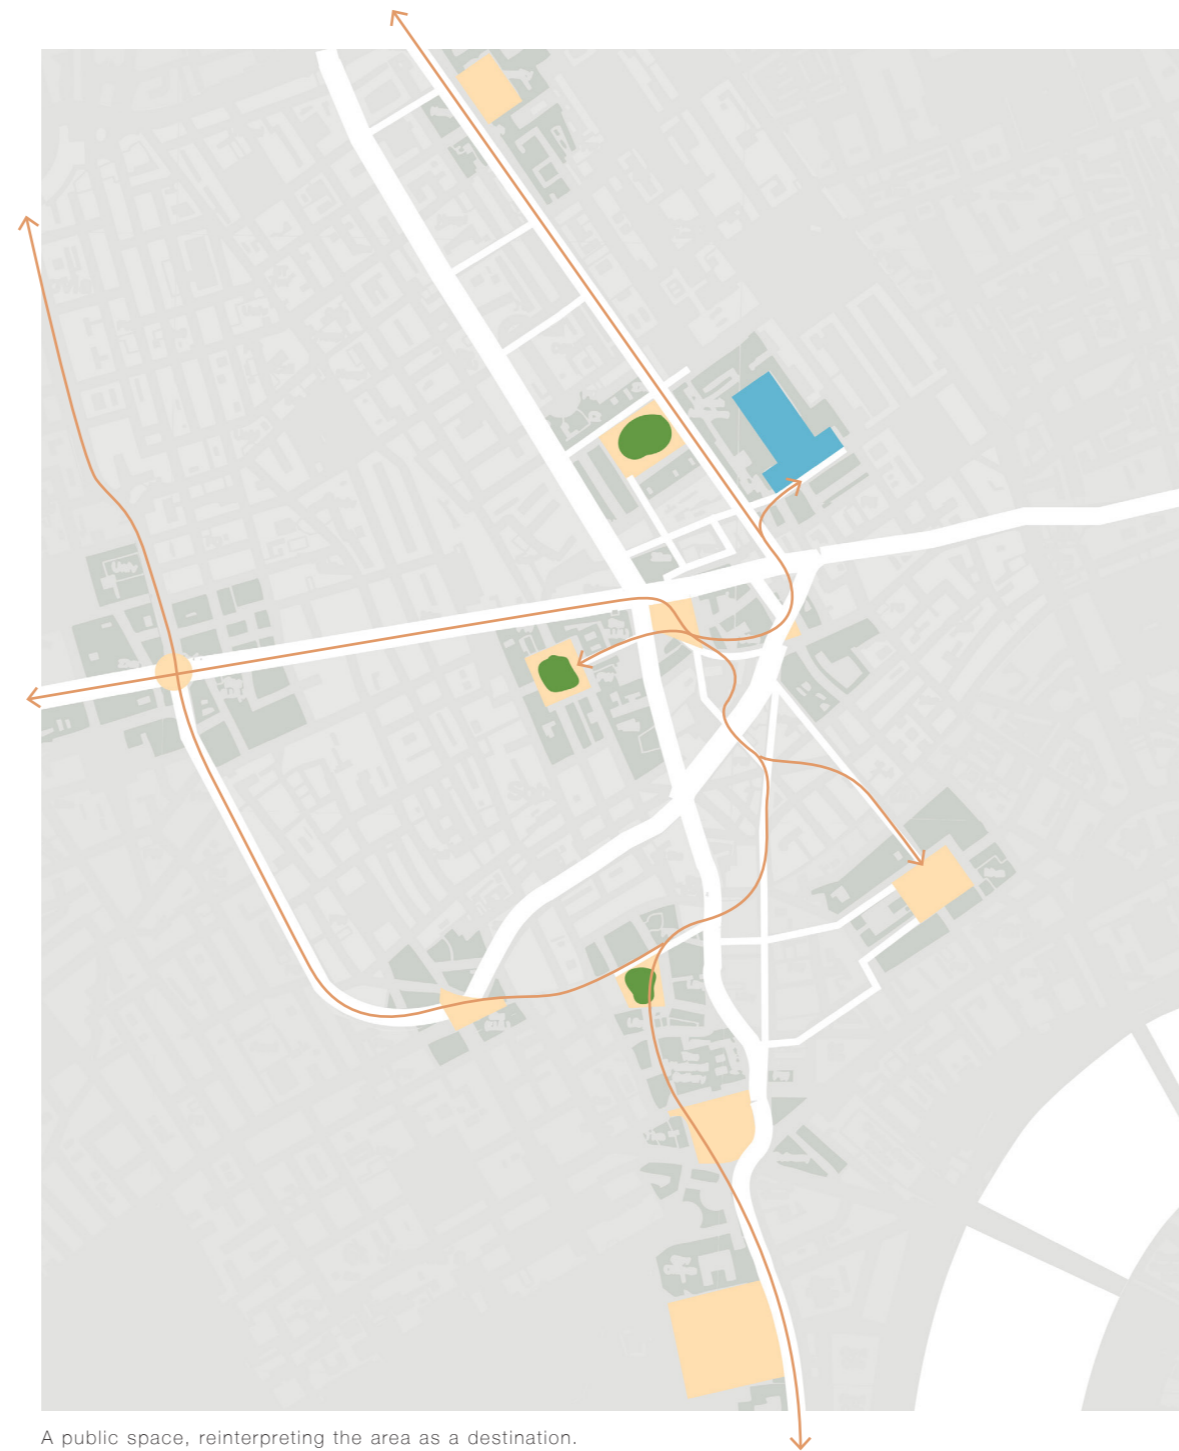

4.2 TRANSPORT STATEMENT

#### 4.1 WIDER PUBLIC REALM

The redevelopment of Centre Point is part of a wider transformation of the St Giles area that has been stimulated by the Crossrail development (see section 2.1)

The London Borough of Camden via the West End Project proposes to close St Giles High Street and to create a shared surface to Denmark Street, alongside the creation of a new public space to the south of Centre Point, facing St Giles in the Fields Church, connecting Denmark Street to the Central St Giles development.

RMA are now working with London Borough Camden Highways to help coordinate the public realm aspect to proposals across the Centre Point site.

A public space, reinterpreting the area as a destination.
