Subject: RE: Lindfield Heights tree application

Dear Barry,

Thank you for getting in touch, please see my comments below on the specific trees in question. Is it this ok?

- 6. Cherry – please specify how much you wish to thin and prune by – **15% thin and remove approx. 0.5 m all round**
- 12. Holly – Please can you clarify where the bay is and specify how much you wish to reduce – **there is an error on my list. I mean to leave the bay but reduce the holly by 2 metres in height**
- 28. Holly – please specify how much you wish to lift – **lift 2 metres over pathway**
- 30. Silver Birch – **reduce height by 1.5 metres.**
- 31. Laburnum – **reduce height by 1.5 metres and take 0.5 meters off lateral to leave in oval shape**
- 32. Holly – please specify how much you wish to reshape these three by. - **reduce height by 1.5 metres and take 0.5 meters off lateral to leave in oval shape**

Kind regards,

Alex

Dear Barry,

Apologies for this, I went through these with Nick on site and he approved them as they were all just reductions to previous points. Please let me know if you need any more information.

Kind regards,

Alex

Hi Alex

Thank you for the email, and please accept my apologies for the delay in us getting back to you.

However, I've just been going through this with Nick and we've noticed that you don't seem to have provided details of works to trees 39-47 (it appears the form you filled out on the portal ran out of space). Can you provide us with this information so we can go ahead and register your application?

Thanks and kind regards

Barry

Hi Barry,

I hope you're well.

Further to my meeting last week, I have amended the tree locations map to reflect the numbers and trees I discussed with Nick so the application can be approved.

I know you have a lot to process, is there any chance this can be looked at sooner rather than later as the client is very keen to start works. I spoke to Nick and he was happy to approve all the work apart from the lime tree (T18) as he has to speak to colleagues as the tree is TPO'd.

Kind regards,

Alex
