Informative(s):

- 1 Reasons for granting listed building consent.

The proposed link located beneath the main house to access the existing basement would comprise no external manifestations. The link serves as a sub basement level stairwell and lift area continuing up through to the main house. The internal works retain the original historic fabric of the main house and would not therefore compromise the architectural or historic interest of the building.

The quality, design and nature to which the link area is connected to the main house is considered appropriate and ensures no harm to the special architectural and historic interest of the listed building and would preserve the character and appearance of the surrounding conservation area.

The planning and appeal history of the site has been taken into account when coming to this decision. No objections were received prior to making this decision.

Historic England advised that the application be determined in accordance with national and local policy guidance.

Special regard has been attached to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it

possesses, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011 (as amended); and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
