2015/1169/P	Elena Acciarri	135 Arlington Road London NW1 7ET NW1 7ET	08/04/2015 21:59:02	OBJ	I am resident at 135 Arlington Road, adjoining neighbour to 133. I object to this planning application as I consider that the terrace would overlook our premises and garden. The proposed terrace is currently a flat roof of an extension that would need to be accessed from a window that sits across the stairs at first floor level. The proposed terrace is not at raised ground floor level as it appears from the proposed Raised Ground Floor plan but above that, between ground and first - refer to Proposed Elevations. The proposed terrace would directly overlook our garden. Any staircase to allow access from the terrace to the garden at 133 would need to have a long span and be intrusive and overbearing and would look directly into our living area.
