2015/1695/L	Eve Smith	27A GROVE TERRACE LONDON NW51pl	09/04/2015 16:00:43	OBJ	<p>I note that the current revised application refers to the enlargement of the front area lightwell and replacement of the existing front garden railings. Excavation of the lightwell would destroy the unified effect of the front gardens and lightwells on the Terrace and interfere with the overall unity of the frontage of the terrace.</p> <p>Removing the existing railings and replacing with reproductions is lazy when everyone else makes the effort to refurbish and make good.</p>
