2015/1700/P	Mr Emmanuel Constantine	8 Burrard Road NW6 1DB	09/04/2015 15:38:57	OBJ	This location is within a dense urban environment, which is surrounded by, at least, 50 households, within a radius of 25 metres. Noise pollution is already a constant nuisance, with its ceaseless hubbub emanating from humans, animals and power tools, irrespective of weekends, public holidays, or hours within daytime or night-time. Allowing an extension into the epicentre of this hub will also increase the possibility of being overlooked.
