Dear Gideon,

**41 Highgate West Hill - Application for Listed Building Consent for the installation of security cameras**

We are pleased to enclose on behalf of Safran Holdings Limited, an application for Listed Building Consent to install security cameras to the above listed property.

The proposals involve installing discreet CCTV cameras on the exterior of the main house and newly constructed Orangery. The proposed security cameras will not harm the significance of the listed House and will preserve and respect its character and appearance. The CCTV cameras will be located discreetly on the building, and will be positioned in such a way that they are not visible from street level. Further, none of the significant architectural features of the house will be compromised by the cameras. The cameras will be carefully fixed to the building as to not cause harm, and will be finished with colours to blend into their surroundings. Full details on materials and fixings are included within the Scott and Twine note included with the application submission.

Overall, it is considered that the cameras will respect the character and appearance of the listed house and preserve the significance of the heritage assets and their setting. It has
