Your comments on the planning application

The main issue is that with the height of the proposed new build. The roof will obscure my view from the living room window. It will also reduce the amount of daylight coming in to my living room.

I urge you to reconsider the proposed new build and reduce the height of the roof to the level of my lowest windowsill.

I am happy to provide additional photographs or organise for you to visit the property and see the situation for your self.

If the height of the new build is reduced I will not object. I would consider compensation as this new property will considerably reduce the value of mine.
