2015/1243/P	Sophie Levi	17 Princess Road London NW1 8JRT	10/04/2015 19:02:53	OBJ	<p>I object to the application.</p> <p>This wonderful building is an important part of the visual landscape and history of the area, so it is really important that its appearance is preserved.</p> <p>Therefore the plans should not increase the height of the building in the northwest corner of the site and not put balconies and lightwells in the inner courtyard.</p> <p>I object to the plans to enlarge the staircore in the southern building on the site.</p> <p>The building should retain the pitched roof and not have a flat roof in the eastern corner of the site.</p> <p>I also strongly object to plans to reduce the number of employment space uses (B1) as compared to the previous permission - since the local economy depends on a mix of work and live spaces. Recently many work places have been lost. The number of residential units should not be increased from the previous plans.</p> <p>It should retain onsite affordable housing - since that is what is vitally needed.</p>
2015/1243/P	Imre Lake	62 Regents Park Road NW1 7SX nw1 7sx	10/04/2015 11:12:51	COMMEM AIL	<p>I object to anything which</p> <ol style="list-style-type: none"> 1 reduces the number of B1 spaces from the previous permission 2 increases the number of residential units from the previous permission 3 Increases the height of the building in the NW corner 4 Puts balconies and lightwells in the inner courtyard 5 Enlarges the staircore in the southern building 6. Does not retain the pitched roof 7. Puts a flat roof in the eastern corner 8. Does not retain affordable housing comparable to the previous permission 9 Does not treat this traditional industrial building in this conservation area more sensitively than the current plans do
