The proposed replacement windows are located within the modern extension and will not be visible from the public realm. The replacement windows will be similar to the existing windows. Therefore it is not considered to affect the setting of the listed building. There will be no loss of historic fabric or harm to the special interest of the listed building.

Due to the proposal being a replacement of existing windows, it would not harm the amenity of any adjoining residential occupiers in terms of loss of light, outlook or privacy. Given the above, such an extension in this location is not considered harmful to the character and appearance of the host building, streetscene or Hampstead Conservation Area.

Historic England advised that the application be determined in accordance with national and local policy guidance.

Two neighbours were consulted and a site notice displayed. No objections have been received. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses, under s.66 and s72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden

Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011 (as amended); and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
