Informative(s):

- 1 Reasons for granting advertisement consent;

The proposed projecting sign would be below fascia level and displayed on the street frontage. The sign respects the architectural features of the host building and the character and appearance of the surrounding area, hence considered appropriate in terms of size, design and location. The sign will not be illuminated, as such it will not impact on neighbour's amenity nor will it be harmful to either visual amenity or to road safety.

The site's planning history was taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of The London Plan consolidated with alterations since 2011; and paragraphs 14, 17, 56-67 and 135 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
