6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

N/A

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Large lime tree, over 20m in height, located at the foot of the rear garden of 26 Dartmouth Park Road, close to the boundary wall with the rear garden of 1 Laurier Road. At its current height, the tree poses a safety risk to houses in Laurier Road, if uprooted by a storm; the Laurier Road gardens are only about 10m in length. When in leaf, the over-large canopy causes excessive shading to gardens in Dartmouth Park Road and Laurier Road, with blocking out of natural light on the ground and upper floors of 1, 3 and 5 Laurier Road. Being a lime tree, the overhanging foliage causes a nuisance by dripping aphid "honeydew" into neighbouring gardens in Laurier road and 28 Dartmouth Park Road.

Work proposed is:

- crown reduction - reduce all new growth back to previous pollard points; remove branches overhanging neighbouring gardens in Laurier Road and 28 Dartmouth Park Road;
- reduce main stems by 6m; this would bring the height of the tree to about the same as two recently reduced lime trees in the garden of 30 Dartmouth Park Road;
- remove all trunk growth below the main fork ie to a height of about 7m.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

Yes No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)
