

Gerry,

We would like to remove a small Eucalyptus that is in a poor location at the above property. The maturity and size has advanced beyond what was intended, please see the attached pictures.

The owners would like to remove it before it becomes problematically massive, which could only take 10 years.

This work is for Circle 33, 1-7 Corsica St, N5 1JG. 03005003000

Please let me know if any further information is required.

Best regards,

Tom
