Rotunda Tree Felling NW3 1DE
Application 2015/0817/P

We live at the rear of the Rotunda and greatly appreciate the trees. We strongly object to their felling. There is precious little greenery in this area, the trees are good for the view, the air we breath and are very much part of Hampstead's heritage. These are MATURE trees and would take a long time to replace. Again, we object to the plan. Thank you.
