To Whom It May Concern,

Transport for London on behalf of Photo-Me

I am writing this letter in support of the installation of Photo-Me booths on the TfL network.

TfL are re-introducing Photo Booths across the network to provide a customer service, diversify our customer offer, and in order to capitalise on disused space. A contract with Photo-Me is in place, who are in the process of identifying appropriate spaces on the network and in some cases applying for Listed Building Consent where required. The process of applying for Listed Building Consent follows internal consultation and agreement on the proposed spaces.

The identified space at Chalk Farm station has been through the internal consultation process and has been agreed by all parties. TfL would therefore welcome the installation of a Photo-Me booth in this location.

Yours sincerely

Nicola Parsons
Business Development Manager
