I object to the application (please state reasons below)

Your comments

There appears to be too many building works going on around us.  
The side wall of the proposed building and existing building is inside my back garden.  
I am rather concerned <sup>the effect</sup> this would have on family life, privacy and noise control pollution around.  
Another major concern is my 20yr old Autistic son, I specially asked for the garden of 54 to be divided as to afford him some privacy, and safety as he is unaware of danger and often strips naked.

Please continue on extra sheets if you wish

PTD

What steps will be taken to ensure  
Safety, privacy and <sup>avoid</sup> overcrowding?

When works are going on, if approved  
What is the level of noise pollution  
and trespassing? to be expected?

I want to hear from you
