Informative(s):

- 1 Reasons for granting listed building consent.

The proposal essentially seeks amendment to listed building consent ref: 2010/4556/L which itself sought the installation of a rear (north-west) and side (south-west) terrace and steps and associated alterations to existing residential dwelling house (Class C3).

The amendment seeks to utilise the foundation area beneath the rear terrace and steps for residential accommodation, with no further external manifestations required.

Constructed for purposes of support, the foundation area would be modified to better relate to the host building at lower level, including a newly inserted doorway.

The internal alterations proposed, by virtue of their extent, condition and quality ensures no harm to the special architectural and historic interest of the listed building and would preserve the character and appearance of the surrounding conservation area.

The planning and appeal history of the site has been taken into account when coming to this decision. No objections were received prior to making this decision.

Historic England advised that the application be determined in accordance with national and local policy guidance.

Special regard has been attached to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011 (as amended); and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
