2015/0271/P	Andrew Llowarch	74 camden mews nw1 9bx	21/04/2015 13:37:00	COMMNT	my objections / concerns are as follows:  a. the internal arrangement is poorly considered and seems likely to result in relatively dark living spaces with limited natural daylight and potentially reliant on artificial lighting. b. the proposed density of development on the site leaves little amenity space, and impacts on the amenity space of neighbouring properties. c. a concern that fire escape from the upper floors hasn't been considered properly d. the external appearance will detract from the conservation area, a higher quality design would be more welcome if the site is to be developed e. the roofscape in terms of scale and massing is unsympathetic to neighbouring properties and the wider conservation area
