2015/1461/P	A Ochert	7 Malden Place NW5 4JL NW5 4JL	19/04/2015 22:36:05	OBJ	We are neighbours at the rear of this address. We already have ongoing problems for years with late night noise from residents in this area, particularly from parties and dinner parties held on roof terraces throughout the summer and any evening of fine weather. We are therefore objecting to this application since it is likely to compound our problems. This flat has occasionally been the source of some of our disturbances.
