2015/1520/P Michael Ellis 91,
Chetwynd Road 13/04/2015 19:15:55 NOBJ Dear Sir/Madam

We have had a careful look at the proposals from our neighbour at 93 Chetwynd Road and we write to support the application.

We feel that the proposed alteration to the front of the house would be an improvement to the street front architecture and be a welcome replacement of the current entrance sideways infill at no. 93, which is rather ugly and anachronous. It does not look as if it would be overbearing, and is of a suitable height to match the surrounds.

At the rear their proposed extension, although 2 storeys, looks considerate and respectful to our own property, and does not cause us any loss of amenity. As far as one can tell, the materials look as if they would sit harmoniously with the surrounding Victorian properties.

We therefore encourage you to give consent to their proposals.

Yours faithfully

Michael Ellis and Anne Soper,
91 Chetwynd Road.
