2015/1683/P	Charles Reekie	7 Regal Lane London NW1 7TH	27/04/2015 09:00:03	OBJEMPER	This planning application abuts my house at 7 Regal Lane. The plan shows the new construction as level with my house but the plan is not clear. If the line of the construction is perpendicular to the boundary wall and aligned with the most rearward section of the front windows of my house, it will not be easily visible and not impact on light. If it is forward of this line it will obstruct light and the view and I would object. Also the nature of the construction means that the car parking space will be partly under the new construction and partly not as the space will be less than 3m deep.
